

Jan 11th 2014

Dear Sir,

I am writing to thank you about the Stannah chair lift that we had installed on Dec 12th 2013.

It is absolutely brilliant & we'd thought that my wife and I would be able to get upstairs in such comfort and ease.

I want to thank Mr Chris Hamman who came and showed us on his laptop of how the chair lift would look and how to work it, and also for his accurate measurements and who found out where we lived in a difficult area to find.

The two gentlemen fitters Paul and Lee who once again arrived on time in a difficult area to find, fitted the chair lift in a very efficient and pleasant manner, and had it in operation and working with in few hours, all cleaned up and very well explained how to use, and what is more, all parts were there and nothing missing (Very unusual in these days)

So to the fitters who made the chair lift and the electrician who came to give the power to the chair lift, and all your staff who work behind the scenes I give them credit and a big thank you for my wife and myself regards,

to getting up and down the stairs,
this Stannah chair lift
is like a life boat to a
shipwrecked crew (we have been saved)

I am
yours sincerely .
V. Weston .
