Dear Mr. Stannak

This is to very belatedly reply to your kind letter of 9th May 2014, and all the supporting documentation for the installation of my stairlift from your company.

As your engineers may have told you, although I have a modern house, the stairway to the first floor was steeply angled with quite deep treads. It was therefore getting quite stressful for me (I am 87 year old) to use the staircase.

Your stairlift has now completely removed that stress and physical effort, and I can

now relax and enjoy the house for I hope a good few more years to come.

I have taken note of all your after sales services. With my grateful thanks to you and your staff,

Yours sincerely,

John H. Mills

Nick Christopher
Dave Perry.
